

STENTSPECT CR

*WHEN IT COMES TO
INSPECTION, WE
HAVE THE VISION*

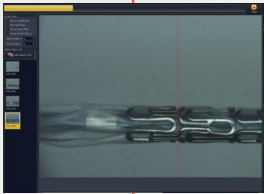

**Proudly Invented &
Made In INDIA**

StentSpect CR

When it comes to imaging, we have the vision. Here is advanced non-contact, accurate and repeatable crimped stent imaging and visual documentation system for your data gathering requirement for future reference. StentSpect CR has got extra magnified advanced zoom lenses to take multi angle images. It has high efficiency camera to take high resolution images which has the accuracy up to 6 microns. For better imaging it has advanced lightning system and motion control system which makes high resolution images possible for an in-depth inspection of a crimped stent. Making the inspection easy and calculative it provides SPC analytical reports with graphic representation for your best understanding. This masterpiece is efficient to measure the crimped stent up to 55 mm length and 5 mm of diameter which can be easily customized further as per your requirement. Understanding the importance of your time, the machine can measure an average long length stent in less than 30 seconds.

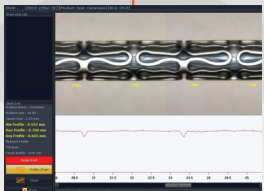

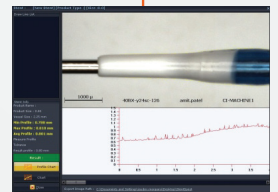

Key Features

Most accurate inspection system for crimped stents.

Provides SPC analytical reports, with graphical representation.

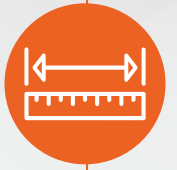

CFR 21 complaint, with CAD comparison availability.

Salient Features

No human intervention, least chances of any error.

Can measure up to 55 mm length and 5 mm diameter of stent.

Easily accessible and user-friendly Data Management.

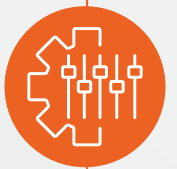

Measures average long length crimped stent in less than 30 seconds.

Advance lightning system, motion control system and high-resolution colourful images.

Can be easily customized as per your requirement.

Having Customer Base in More Than
30 Countries & 5 Continents

India | Botswana | Brazil | Cambodia | China | Dubai | Ghana
Hong Kong | Indonesia | Japan | Laos | Mauritius | Romania
Russia | Singapore | South Africa | South Korea | Spain
Sri Lanka | Switzerland | Taiwan | Thailand | Turkey
United States | Vietnam | Zimbabwe
