Building Sustainable Models of Outcome Based Learning

OUR ACTIONS

- Delivering competency-based training and assessments (online and offline) at a pan-India level
- Customized learning solutions for school & college students, teachers/faculty, working professionals & corporates
- Developed Qualifications Pack & National Occupational Standards aligned to NSQF
- Capacity building & Advisory services in the skill eco-system
- Rich repository of question banks catering to multiple sectors
- Robust technology platform for assessments and knowledge management

Offerings

CORPORATES

Learning solution is designed for reinforcing and filling in skill gaps required for working professionals. The training makes the candidate better equipped and aware about the job responsibilities that they may have and further. The courses are designed to upskill and reskill working professionals designated at each level.

FACULTY / TRAINERS

The Training program for Faculty members and trainers are designed as a comprehensive, multi- day distributive learning process that provides participants with the opportunity to reinforce their understanding that is required to effectively train educators to deliver a specific curriculum. This focuses on how to adopt a competency-based learning & assessment method and understand various learning techniques.

COLLEGE / VOCATIONAL INSTITUTION'S STUDENT

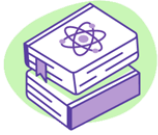

Learning solution is designed to enhance employability skills among students seeking employment. The training makes the candidate job ready and by providing new age skills. Employability/professional skills provided through its courses are sector agnostic and applicable to all the students.

SCHOOL STUDENTS

Learning solution is designed to make a school student aware about entrepreneurial and professional skills. The training makes a candidate to think out of the box by providing them skills which are critical while shaping up a bright career. Exposure to soft skills and entrepreneurial at early stage can do wonder for a student.

SKILL ASSESSMENTS

The Competency Based Assessment Model is used to assess candidates, and measures knowledge, skills and attitude for a given job role. Our robust examination method assists organizations, schools & institutions to gauge the proficiency level of candidates. A wide range of question bank is available for 8 sectors in 10 regional languages.

About Vidyadhara

Vidyadhara is a team of TVET professionals, educationists and industry skill development experts who are committed towards enhancing the quality of vocational skills and education globally.
