

# Efficiency Unleashed, Possibilities Amplified

Kirloskar's ARiA oil-injected screw compressors are specifically designed for India's tropical conditions and ideal for a wide array of industrial applications with the capacities ranging from 7.5kW (10hp) to 37kW (50hp). It is also equipped with a Bluetooth-enabled control system for Near Field Connectivity. ARiA range of air compressors features a user-friendly design, top-of-the-line quality and durability, ensuring lasting performance.

### **Features**

- In-house manufactured air-ends
- Full automatic operation
- Smart control through Bluetooth connectivity
- Sturdy canopy design
- Energy saving cooling system
- BMS connectivity through MODBUS RS485

#### Air-Ends

In-house manufactured advanced air-ends ensure enhanced efficiency, durability and reliability- meeting a new standard in performance

#### Pressure

The rotary air-ends produces a consistent air flow delivery, free from fluctuations, ensuring stability and reliability.

### **Power Consumption**

ARIA range of rotary screw compressors offers power savings of up to 30% compared to a conventional reciprocating compressor.

#### Installation

The compressor comes pre-equipped with uncomplicated automatic controls, making it ready for immediate installation. Optionally, it is fitted with an air receiver for added convenience.

### Maintenance

Maintenance is made easier with minimal panel removal and components are strategically placed for convenient access.

### Advanced Controller

The advanced controller has been designed and engineered as an efficient control solution for ARiA series. The system allows user to monitor and control overall performance with user friendly indications and alarms.

## Controller Features

Intuitive and synoptic display through mobile connectivity

Operating mode set up including the pressure

Controlling and monitoring of air pressure

Oil temperature display

Running hours indicators
