Warehousing & Distribution

Kolkata

Warehousing & Distribution (W&D), Kolkata, has traditionally been a stockyard operator specializing in ferrous material handling. In recent years it has forayed into modern warehousing and distribution services with two units in Kolkata (W&D-HRC & W&D-Sonapur). While the W&D-HRC is attached to the CFS, W&D-Sonapur is internally connected to CFS-Kolkata via rail / road. They currently provide the following services:

Kolkata -I (Hide Road Complex)

- On-wheel stuffing / destuffing (through dock leveller)
- Modern selective Pallet Racking Facility
- Customized manual cargo storage
- Covered bonded warehousing facility (12,000 sq.ft.)
- Value added services like Palletizing, Repacking, Wrapping, Choking, Lashing, Fumigation etc.

We provide dedicated and shared warehousing and distribution operations to ensure efficient services and timely delivery

Coimbatore

Located in Kanuvai and close to major industries, W&D Coimbatore offers all essential services for warehousing operations.

- 10,000 sq.ft. of covered warehouse
- 20,000 sq.ft. of open warehouse at Coimbatore
- Temperature-controlled environment
- Easy accessible to Industrial area
- Vehicle parking facility

Kolkata -II (Sonapur)

- Rail Siding cum stockyard services
- Bonded warehousing (open / covered)
- General / Non-bonded warehousing
- Stuffing / destuffing services
- ODC / project cargo handling / storage etc.

Vishakapatnam

Balmer Lawrie has partnered with Andhra Pradesh Medtech Zone (APMTZ) to provide the state-of-the-art Central Warehousing solution to its customers in Visakhapatnam. The AMTZ is the world's first Integrated Medical Device Manufacturing Ecosystem.

The central warehouse is spread over an area of 3 acres (1,30,680 sq.ft.). All the manufacturing units that have their individual set up within the AMTZ premises can store their goods in the warehouse prior to distribution without having to rely on external assistance for this core service.

- 500 tons capacity pallet racking system
- 75,000 sq.ft. warehouse floor area with 9M minimum height
- 5,000 sq.ft. cold chamber (2-rooms at +4 deg C)

Cold Chain Solutions

- Expertise to handle all products between the range of -25°C to +25°C
- Value Added Services - grading, sorting, blast freezing, dry storage, packaging etc.
- Owned fleet of reefer trucks of all sizes with GPS enabled and real time temperature monitoring system
- Catering to all industry segments with last mile delivery
- Cold Chain Unit at Multi Modal Logistics Hub in Visakhapatnam
- Catering to temperature-controlled supply chain requirements of the nation with presence in metros and tier-2 cities

- Storage Capacity – 1864 Pallet Capacity; Multiple chambers of frozen temperature
- Certification – FSSAI,MPEDA
- Ideally suited for storage of Dairy, Seafood, confectionary , QSR, Retail, FMCG , Retail etc.

ADDRESS: R S No. 104/1A2, CWC Rayanapadu, Guntupalli Village, Ibrahimpatnam, NTR District Vijaywada- AP

Freight Forwarding

SEA

With expertise in handling explosives, over-dimensional cargo, time-sensitive, temperature controlled and specialized project shipments, we also cater to containerized (FCL / LCL) bulk, break bulk and coastal requirements

LAND

We have trans-industrial and multi-modal expertise in inland transportation and freight forwarding, ranging from general cargo/ break bulk cargo to project cargo and turnkey execution including warehousing

AIR

We engage in air chartering and consolidation activities around the world. We also handle sensitive, defence, medical equipment, perishables and cold chain cargo

Door-to-door... & more

Transparent & Timely

- Origin management of shipments (EXW / FCA) through a strong global associate network
- Ease of document management and receipt of pre-alert as soon as shipment is loaded at origin
- A single window communication for regular shipment updates, including trans-shipment
- Licensed and certified by all concerned authorities for prompt clearances and quick TAT

Services

- Explosive and defense movement
- Global management of import / export freight along with warehousing and transportation activities
- Collaboration with CFS and asset heavy players to provide 3PL activities
- Supporting in specialized turnkey project cargo and complex logistics
- Route mapping and door-delivery for over-dimensional cargo
- Security escorts for sensitive and higher value shipments
- Door-to-door domestic movements

Container Freight Station

Balmer Lawrie has three state-of-the-art Container Freight Stations (CFSs) in Mumbai, Chennai and Kolkata with warehousing and distribution facilities in Kolkata and Coimbatore. This is testimony to our ability to successfully handle a whole range of cargo promptly and safely 24 x 7. The CFSs are fully equipped for secure handling and on-time delivery of cargo, whether it is over-dimensional, perishable, temperature-sensitive or standard cargo.

CFSs are AEO certified with ISO 9001:2008, ISO 14001:2015 and OHSAS 18001:2007 accreditation.

Container Handling Services

- Transportation of containers to / from ports
- Full Container Load (FCL) delivery
- Destuffing, storage and delivery
- Handling over-dimensional and out of gauge consignments
- Handling and monitoring Reefer Containers
- Consolidation and de-consolidation of Less than Container Load (LCL)
- Handling of cargo for exports
- Covered warehousing facility for storage of EXIM cargo
- Handling and storing Break Bulk Cargo
- Bonded warehousing (covered and open)
- RFID tracking of containers and SMS alerts
- Reefer plug-in infrastructure with independent monitoring facilities

Mumbai CFS

- CTPAT certified
- Mumbai CFS commenced operations in the year 1999

- The CFS is connected to Kolkata Dock System & Haldia Dock Complex
- 3 Reach Stackers and 2 Weighbridge upto 100 MT capacity
- Total covered warehouse space of 80,000 sq.ft.

Multi Modal Logistics Hub

Balmer Lawrie has set up a Multi Modal Logistics Hub (MMLH) at Visakhapatnam in a Joint Venture (JV) with Visakhapatnam Port Trust (VPT) for handling Export-Import (EXIM) and domestic cargo.

Set up on 53 acres of land, the MMLH has a 1.36 km track for railway connectivity and can handle four racks in a day. The hub is the only facility to have direct connectivity with the port for seamless movement of laden import and export consignments. Services include:

- EXIM – CFS / ICD, warehousing
- Cold storage / temperature controlled warehouse
- Paved yard for storage of container and cargo
- Hazardous / non-hazardous cargo handling and truck parking

The hub includes a non-bonded / non-notified domestic area with container storage, general warehousing, cold storage, open cargo storage, empty container storage, truck parking, repair and maintenance area for containers.

Project Logistics

Balmer Lawrie has vast experience in successfully providing end-to-end Project Logistics. We handle global shipments with special characteristics: heavy transports, oversized cargo, cargo with time and / or security constraints or shipping to remote, difficult-to-access locations. The project team includes a dedicated person who liaises with the customers throughout the entire project. Services include:

- Project registration with customs
- Documentation and insurance
- Pick-up from supplier's doorstep
- Arranging air / ocean freight movement
- Surface transportation
- Multi-modal movements
- Warehousing and site delivery
- Arranging route surveys

Chartering Services

Charter services are offered for Aircraft, Ships and Barges. Our immense experience in chartering different kinds of freight enables us to identify the fastest, most reliable and cost-effective mode of transport for your cargo. Whether you are shipping across the country, continent or globe, Balmer Lawrie's team of professionals guarantee reliable cargo services regardless of its size, type, origin and destination.

Express Movement Services

We value the importance of time and speed; through our strategic tie-ups with various service providers, we offer movement of express shipment with speed and cost effectiveness being the foremost traits. We also provide appropriate shipping and tracking solutions to suit your specific needs.
